**BOW ISLAND REVIEW**

W. P. Cotton, prop.  
BOW ISLAND, ALBERTA  
Published Friday. \$1.50 a year.

**Advertising Rates.**  
Card of thanks, 50 cents. Local ad  
among reading matter, 10c. per line first  
insertion, 5c. per line each following  
insertion.  
Classified ads., such as "Wanted,"  
"For Sale," etc., 5c. first insertion  
and 2c. each subsequent insertion.  
Announcements of entertainments,  
etc., conducted by churches, societies,  
etc., where admission is charged, at  
half price. Where the object is not  
to make money, the notices will be  
published free.  
Legal notices, 12c. per line first in-  
sertion, 8c. per line each subsequent  
insertion.  
Display advertising rates on appli-  
cation.

**LOCAL & GENERAL.**

Miss Emily Brown visited  
with friends at Medicine Hat  
last week.

Mrs. E. C. Lindke is visiting  
her sister Mrs. H. Murray at  
Eaton this week.

Wayne Johnston is putting  
250 acres in crop on his farm in  
the Malah district.

Mr. and Mrs. E. C. Bateman  
were visitors to Medicine Hat  
Monday and Tuesday.

Warren Fuller and Miss Rich-  
ardson of Whitha were visitors  
to Bow Island on Sunday.

Mrs. James Danphy of Rapid  
Narrows, Alberta, is visiting  
her daughter, Mrs. E. Sutton.

H. Murray of Eaton left  
Monday for Medicine Hat, where  
he will work during the sum-  
mer.

John Lee of Sunnyside has  
moved into town and is occu-  
pying the Rosehrough cottage  
on Broadway.

Miss Lucille Fuller acted as  
bridesmaid at the marriage of  
her friend Miss Edna Muir at  
Medicine Hat on Monday.

A Board of Trade meeting  
will be held in the L.O.O.F. hall  
on Monday evening next. A  
full attendance of the citizens  
is requested.

One result of the institution  
of the war tax has been the ap-  
pearance of the humble copier in  
our midst, quite a few of  
which are now in circulation.

The members of Bow Island  
Lodge L.O.O.F. hold their cus-  
tomary memorial service at the  
cemetery on Tuesday evening  
next. Oddfellows and sisters  
of the Rebekah Lodge please  
take notice and attend if at all  
possible.

In the Alberta Gazette this  
month we notice several of our  
citizens have received honors at  
the hands of the provincial  
government. F. W. Brown is  
gazetted a justice of the peace,  
and J. W. Hurd and J. M. Mil-  
roy are appointed commissio-  
ners to take affidavits.

Senator E. E. Loback of Alex-  
ander, Minn., will address a  
meeting in the L.O.O.F. hall on  
Tuesday, June 15th, in the in-  
terest of Prohibition. The sen-  
ator is a forceful speaker, and  
no doubt there are a large  
number of our citizens who will  
take this opportunity of  
hearing him.

The body of Hans Spring,  
whose death was briefly an-  
nounced in our last issue, was  
interred in the local cemetery  
on Saturday last in the pre-  
sence of a large number of  
sympathizers. Service was held  
at the house at ten a.m. and the  
interment took place at 1 p.m.,  
the officiating minister being  
the Rev. N. T. Braa. The de-  
ceased, who was 51 years of  
age, leaves a widow and a fam-  
ily of five boys and two girls,

one of whom is married and  
lives in N. Dakota. He came to  
this country in 1900 and took  
up land on sec. 34-11, where he  
has resided ever since.

Again does Bow Island dem-  
onstrate the fact that, when  
conditions are anything like  
favorable this district is equal to  
any. Callers at the office of  
The Review give statements that  
are, practically identical, and  
in the matter of rainfall  
show that every part of the  
district is receiving equally fa-  
vorable and impartial treatment.  
Wheat and flax are each espe-  
cially commented upon for their  
rapid (almost phenomenal)  
growth and for their fine ap-  
pearance. A sample of flax  
shown us today grown on the  
farm of John Lee at Sunnyside  
measured nine inches, and it  
was plucked from a field of 30  
acres, the whole of which was  
equally as fine as the sample.  
Spring wheat on Mr. Jordan's  
farm, south of Bow Island, in  
the vicinity of Forty-mile, is  
now twenty inches high, and  
there are many other fields  
along the banks of the Coulee  
that are just as good as this  
one. The heavy rains of this  
week have helped wonderfully,  
especially in the case of grain  
that was seeded too shallow,  
and farmers who a week ago  
were complaining of the patchy  
appearance of their crop are  
now exceedingly optimistic.

**Correspondence.**

(Continued from page 1.)  
ulation is illiterate? The mortality  
rate has dropped from 17 per 1000  
to seven per 1000.  
Your space will not permit me to  
deal with the other issues raised by  
Mr. Teitelbaum. With regard to hotel  
accommodation, I should like to re-  
mind you that in many States of the  
Union the saloons and the hotels are  
allegedly distinct, and there is a re-  
ason whatever why in Alberta a  
good respectable business like the hotel  
business should be snatched  
through its association with the de-  
moralizing influences of the bar-town.  
Wherever there is a genuine demand  
there arises a supply, and the demand  
for good hotel accommodation will be  
met by the people of Alberta without  
the help of the Licensed Victuallers'  
Association. I regret that I was up-  
der a misapprehension with regard to  
copies of the Act for distribution.  
There was no evidence in this locality  
that any lot of the Temperance party  
had copies for distribution. If others  
have it, all the better.

As to the other matter in which Mr.  
Teitelbaum so pointedly impugns my  
veracity, I still hold, after re-reading  
sections 32 and 38 of the Act that  
alcohol legitimately obtained in the  
province could be used in case of sick-  
ness without there being necessity to  
run for a special doctor's prescription  
in every emergency. The purpose of  
the Act is not to prevent the use of  
alcohol as a medicine, but to prohibit,  
as far as the power of the province  
will permit, its use as a beverage.

Yours sincerely,  
Chas. Bishop.

**THINGS THAT DON'T  
HAPPEN.**

The Old Subscriber: Good morn-  
ing, Mr. Editor, I just dropped in to  
leave you a mess of my new potatoes  
and tell you that your paper gets  
better every week. Your account of  
my daughter's wedding was written  
in good style. I'd take about \$2  
worth of extra paper. Say you did  
the other editor up in great shape in  
regard to licensing saloons. By the  
way, here's a dollar, send your paper  
to that moon-shiner of mine in Oshkosh.  
Guess I'd better give you another  
dollar and let you mail it to my wife's  
sister back in Kokomo. My coupe are  
lacking time. Well I guess I'll be  
going to run for sheriff and want you to  
say a good word for me. Of course  
you can't just for nothing, so here's  
\$10. But just then the editor woke  
up.

your job printing.

**Late War News.**

London, June 12.—Dispatches received  
here from France state that the  
Canadians have made a gain of five  
miles and holding it in a position  
where the British have been unable  
to do anything since October.

Geneva, Switzerland, via Paris,  
June 12.—News-dispatch received here,  
declare that two Italian torpedo  
boats early yesterday entered the  
Gulf of Trieste and sank two merchant  
vessels, and damaged an auxiliary  
cruiser.

London, June 9.—A British sub-  
marine operating in the sea of Mar-  
time, torpedoed a large German  
transport in Paderms Bay, yester-  
day morning. This was given out of-  
ficially in London today, as having  
been received from the Vice-Admiral  
Commanding at the Biscayennes. It  
is said also that this submarine was  
one of several operating in these  
waters.

Why put off until tomorrow what  
can be done today? It will only cause  
you sorrow by the useless long delay.  
Let us then be up and doing with a  
heart for any fate. Just come up and  
pay the printer for the paper; up to  
date.

A plan for drawing trade in a town  
that has been apparently worked at  
several times might be applied to ad-  
vantage in this city. The plan is as  
follows: An agreement was reached  
between all the merchants whereby  
they offered special sales on certain  
days, and the result was that the  
special line of goods upon which he  
made a lower price than usual. This  
one day goods house would sell gloves  
at a special price, while another  
would offer bargains in dress goods.  
One hardware merchant would  
reduce the price on saws. Every  
line of business was represented and  
care was taken that no conflicts oc-  
curred. Prices were then offered to  
the farmers bringing in the best load  
of grain or the handsomest baby and  
the bargain day was extensively ad-  
vertised in the surrounding country.  
The farmers responded in a most  
gratifying manner and the merchant  
was well pleased with the plan. The  
idea has already been carried out in  
several cities.

"ANYTHING that is produced in  
Canada from Canadian materials,  
by the application of Canadian brain  
and labor, will always have first call  
with me. And it's only good business  
on my part that it should."

**LEADING GRAIN GROWER  
NOW A MANUFACTURER**

Mr. W. J. Treigillus' Plant at Calgary  
for the Manufacture of Clay Pro-  
ducts Nearly Completed

Mr. W. J. Treigillus, the leader of  
the free trade movement in Alberta  
has become a full-fledged manufac-  
turer. His new enterprise in Calgary  
for the manufacture of clay products  
such as tile, sewer pipe, brick, etc.,  
will soon be ready for operation.  
The concern is known as the Treigil-  
lus Clay Products Company and ac-  
cording to a Calgary newspaper has  
a capital investment in lands, build-  
ings and machinery of \$500,000; it  
will furnish employment for 200  
skilled artisans just as soon as  
the necessary buildings can be  
completed and it is expected that  
the number of employees will ulti-  
mately be increased to 500. The  
machinery, which involves the expendi-  
ture of at least \$100,000 is being  
installed at the plant and the work  
turning out its products very shortly.  
The plant will be located in the  
New Valley, about one half mile from  
the Bow River, close to the river,  
and about four miles west of the Cal-  
gary post office.

It is of interest to note that Mr.  
Treigillus has not embarked in a free  
trade industry such as boiler tubes  
and cream separators which his friends  
have inferred of the people of Canada  
are in a highly prosperous condition.  
Instead he will manufacture articles  
some of which are the most highly  
protected in Canada. For instance  
the duty on sewer pipe is 35 per cent;  
brick 25 1/2 per cent; terra cotta 2 1/2  
per cent and the 20 per cent duty on  
it will be interesting to follow the course  
of Mr. Treigillus as a manufacturer.  
According to his theory the duty on the  
line of goods he will manufacture  
should not be necessary. If the facts  
fit his theory we may expect him to  
appear in Ottawa with the next grain  
growers' delegation and ask for a re-  
moval of the duty on these goods.

**RECIPROCAL DEMURRAGE**

Manufacturers and Grain Growers  
Working With Same End in View

The agitation for reciprocal demur-  
rage is being taken up by all classes  
of shippers. Started some years ago  
by the Canadian Manufacturers' As-  
sociation it was subsequently advo-  
cated strongly by the west through  
the columns of the press and through  
the Grain Growers' Association. In  
order to have the fullest possible in-  
formation regarding delays in trans-  
it through the rail of railways, the  
transportation department of the  
Canadian Manufacturers' Association  
has sent elsewhere to all its members  
requesting a detailed record of their  
experiences during the past few  
months. These will be used as a  
basis of argument which will shortly  
be made before the Railway Commis-  
sion. The resolution dealing with the  
subject was as follows:  
"Resolved, That the Canadian Manu-  
facturers' Association join in the  
application now before the Board of  
Railway Commissioners for a system  
of uniform penalties to be automati-  
cally applied against railways for their  
failure to receive, carry and deliver  
freight, within a reasonable time as  
required under Section 81 of the Rail-  
way Act; such system to require the  
railways under penalty to place cars  
for loading within forty-eight hours  
after ordered; to lift cars within  
twenty-four hours after notification of  
loading; and to place cars for delivery  
at destination within forty-eight hours  
after arrival; the penalties to be simi-  
lar to those which the railways are  
authorized to charge shippers and con-  
signees for delay in loading and un-  
loading cars."  
Inasmuch as Eastern shippers do  
not offer any great opposition to the  
request of the railways two months  
ago to increase the demurrage charges  
on cars delayed it is felt that the  
claim for by shippers' tolls from the  
railways for delays caused by them  
will be reasonably entertained when  
the case comes up for hearing.

**Urging Mixed Farming**

Mayor Nelson, Medicine Hat, in  
course of an interview in Toronto  
said that the farmers of the west are  
beginning to realize that wheat rais-  
ing alone cannot compare with mixed  
farming when it comes to making  
money. Eggs and butter never be-  
low the ten dozen and pound in  
large section of the west, and  
threaten to reach the dollar.  
The cities of the west are now  
endeavoring to bring this point home  
to the western farmers, and an or-  
derly effort will be made to encour-  
age mixed farming in preference to  
wheat. The main argument that is  
being used in this regard is that  
that bigger money and in a shorter  
time can be made in this way  
would be profitable for the farmer  
in wheat.
